Portfolio

Summary

I am looking for a Junior Frontend developer position with the opportunity to constantly expand my skill set and participate in different projects. I am passionate about building software that improves the lives of those around me. I like code and beautifully simple things, and I love what I do.

Skills

- **HTML, CSS, JS, TypeScript**
- **REACT, REDUX, JQUERY**
- **SASS, PUG**
- **GIT, GULP, WEBPACK**

- Methodologies**: BEM, FLUX, OOP, REST API, AJAX, SOLID**
- Additional skils in UI/UX design, Illustrator, Photoshop, Avocode, Figma

Experience

Technician maintenance specialist – **2018 to 2020**
Engaged in the repair and maintenance of laptops and computer equipment.

Web Developer – 2019 to 2020
Have commercial experience with layout(freelance), developed **GeoInfo GIS** (**TypeScript, React, Redux, Redux-Saga, Leaflet**), **UDN - social network, Google news portal** (**Redux-Thunk, Redux-Form, React-Router, Reselect, Axios, CSS-modules**), **Travel Ready**, experience of participation in open source project **PandAid**.

More projects can be seen in my **PORTFOLIO** or **GitHub**.

Education

Master`s Degree: Geography, Psychology – 2018, National Pedagogical Dragomanov University , Kyiv

Self-study: independently studied layout, completed React course, attending open lectures on JS in Kyiv Polytechnic Institute, React Kyiv Community, and using many other sources for study.
